

ELIA ABDEL MASSIH

Zahlé, Bekaa, Lebanon | +961 76 330 429 | Elie_am2000@hotmail.com

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on Shopify expertise — custom theme development, Liquid, Shopify CLI, and Admin API integration — including building and maintaining a live production storefront with multi-store inventory sync for a retail client. Trilingual (Arabic, English, French) with enterprise experience across web, desktop, and e-commerce platforms (React, Node, .NET, SQL). Backed by a full-scholarship University Diploma in Artificial Intelligence from USJ, bringing AI-assisted workflows (MCP, LLM tooling) into rapid prototyping and problem-solving for e-commerce architecture.

TECHNICAL SKILLS

- **Core Languages:** PHP, C#, TypeScript, JavaScript (ES6+), Python (Intermediate), C/C++, Kotlin, Java.
- **Frontend & CMS:** ReactJS, NextJS, HTML/CSS, Shopify (Custom Theme Development, Shopify CLI, Liquid, Shopify Admin API, Multi-Store Inventory & Stock Management), Bootstrap, Razor, WordPress (Custom Theme & Child Theme Development, Hooks/Filters/Actions, ACF, Elementor, Gutenberg Blocks), WooCommerce, Plugin Configuration & Customization, Local Development Environments (Local by Flywheel/XAMPP).
- **Backend & APIs:** .NET Core, .NET Framework, Node.js, Express.js, ASP.NET Web API, WordPress REST API.
- **AI & Developer Workflows:** AI-assisted software development using Claude Code, Antigravity, and Model Context Protocol (MCP) for rapid prototyping, architecture design, and debugging; Prompt Engineering; experience with multiple LLM ecosystems (Claude, Gemini, GPT).
- **Databases:** SQL Server, PostgreSQL, Supabase, MySQL, Entity Framework 6.
- **Design & Prototyping:** Familiarity with Framer for animated web experiences and interactive prototyping; Proficient in Google Stitch UI for AI-assisted UI generation; Figma for design review and asset inspection; Proficient in Canva for creating marketing visuals and social media content.
- **Architecture & Tools:** Git/GitHub, Postman, Swagger, RESTful APIs, OOP, Linux/Ubuntu CLI, Arduino.

PROFESSIONAL EXPERIENCE

Full Stack Developer *Lebanese Military - IT Department*

2023 – Present

- Developed, maintained, and deployed secure enterprise applications using .NET Core, .NET Framework, and ASP.NET Web API.
- Managed robust database architectures and optimized complex querying using SQL Server to support secure, internal military operations and data flow.

Freelance Full Stack Developer *Self-Employed*

Sep 2022 – Present

- Built and maintain a full Shopify storefront (custom theme, collection architecture with tag-based taxonomy, cart/mega-menu/nav overhaul) using Liquid and the Shopify Admin API, including inventory sync across multiple store locations.
- Delivered end-to-end full-stack web and e-commerce solutions for various independent clients.
- Developed the core implementation for ShopEase, a comprehensive React-based e-commerce application.
- Executed pixel-perfect UI conversions, translating high-fidelity Stitch UI designs into fully functional, custom WordPress themes.

Private STEM Tutor (Physics & Mathematics) *Self-Employed*

Nov 2023 – Present

- Designed customized, technical lesson plans for 10+ students, improving average student grades by 30%.

EDUCATION

- **University Diploma in Artificial Intelligence** | *Université Saint-Joseph (USJ)* | Current (Awarded Full Scholarship)
- **Bachelor in Computer Science** | *Lebanese University, Zahlé* | Nov 2022 – Jun 2025
- **Baccalaureate in General Science (GS)** | *Sainte Famille, Zahlé* | Sep 2015 – Jun 2018

KEY PROJECTS

- **Full-Stack Task Management System:** Developed a responsive web application featuring secure SQL Server integration, utilizing a ReactJS frontend consuming an ASP.NET Core Web API.
- **Custom Supermarket POS System:** Engineered a high-performance Point-of-Sale desktop system utilizing C#.NET and WPF for a highly responsive user interface tailored to retail workflows.
- **IoT Parking Detection System:** Implemented a real-time smart parking system utilizing C++, Arduino, ultrasonic sensors, and a mobile app to broadcast slot availability.

CERTIFICATIONS & AI TRAINING

- **Claude 101** | Anthropic
- **Claude Platform 101** | Anthropic
- **AI for App Building** | Google
- **AI for Data Analysis** | Google
- **Introduction to Generative AI** | Google Cloud
- **Advanced C# Language Features & OOP** | Microsoft
- **Professional C# Development Practices** | Microsoft
- **Introduction to Artificial Intelligence (AI)** | IBM
